CameraMatics SafeManager is the app for managers to review:

- Hardware status
- Vehicle status
- Driving events with videos
- Vehicle list
- Map view
- Vehicle tracking/bread crumb trail
- Downloading hi-resolution videos

**Manager names need to be loaded into the website portal to use this app.*

CameraMatics SafeDriver 4+

SafeDriver
Provision Vehicle Cameras Ltd.
Designed for iPad
Free

CameraMatics SafeDriver is the app for driving employees for:

- Driver assignment to a vehicle (Driver ID)
- Upload fuel purchases
- Review of video events that were sent to them by a manager for coaching purposes
- See their Driving Score & related details
- Workflow tasks, such as vehicle inspections (sometimes called DVIR)
- Reporting of an accident or collision with uploaded video and picture files to the web UI

**Driver names need to be loaded into the website portal to use this app.*
