

Multiple Alert Configuration

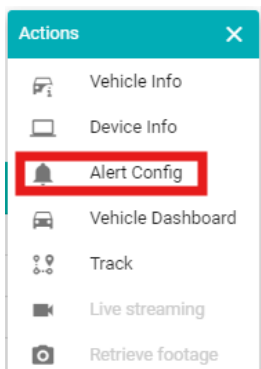

Step 1 – Select the vehicles you want to set the alert and click on the three dots under the Actions column.

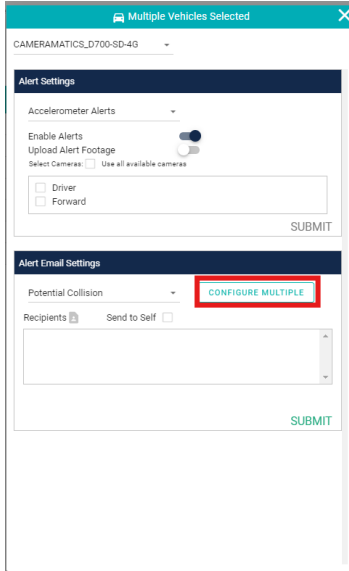

The screenshot shows the CameraMatics dashboard with a table of vehicles. The table has columns for Status, Name, Type, Group, Make, Model, Fuel (L), Deployment, Year, VIN, Notes, and Actions. The 'Actions' column for several rows is highlighted with a red box, indicating that the user is selecting vehicles for alert configuration.
